Cannot Delete Incomplete Download Mac

'macOS 10 13 High Sierra is now available for update on Mac computers and can anyone of you tell me some tips that can help me smoothly update my MacBook Pro into latest macOS High Sierra without losing any data or meet any problems? Thank you.

cannot delete incomplete type unique_ptr

cannot delete incomplete type unique_ptr, can't delete incomplete type, can't delete an incomplete type unique_ptr

can't delete an incomplete type unique_ptr
